We insist on "We care Pet eden" as our core values, always focus on the pet experiences. Devoted to the development of new materials and build a first-class enterprise with international competitiveness.

Currently our main products are puppy training pads and dog diaper. We have established a long-term strategic cooperation relationship with world famous company, such as Japanese Sumitomo, American GP, German Henkel. A high quality product can be produced for your pets.

Disposable puppy training pads

Disposable puppy training pad is super absorbent with five layers of material. The first layer is made of super thin hydrophilic non-woven fabric, which helps to sink dog urine through the pad.

The second layer is a breathable absorbent paper with added attractant to train the dog into a good peeing habit. The third layer is consist of highly efficient water absorbing molecule and advanced fluffy pulp. The combination of two material are able to effectively lock the dog urine and prevent reverse osmosis. In addition, our fourth and fifth layer are designed for anti- leaking with a single purpose of absorbing it all with no leaking at all.

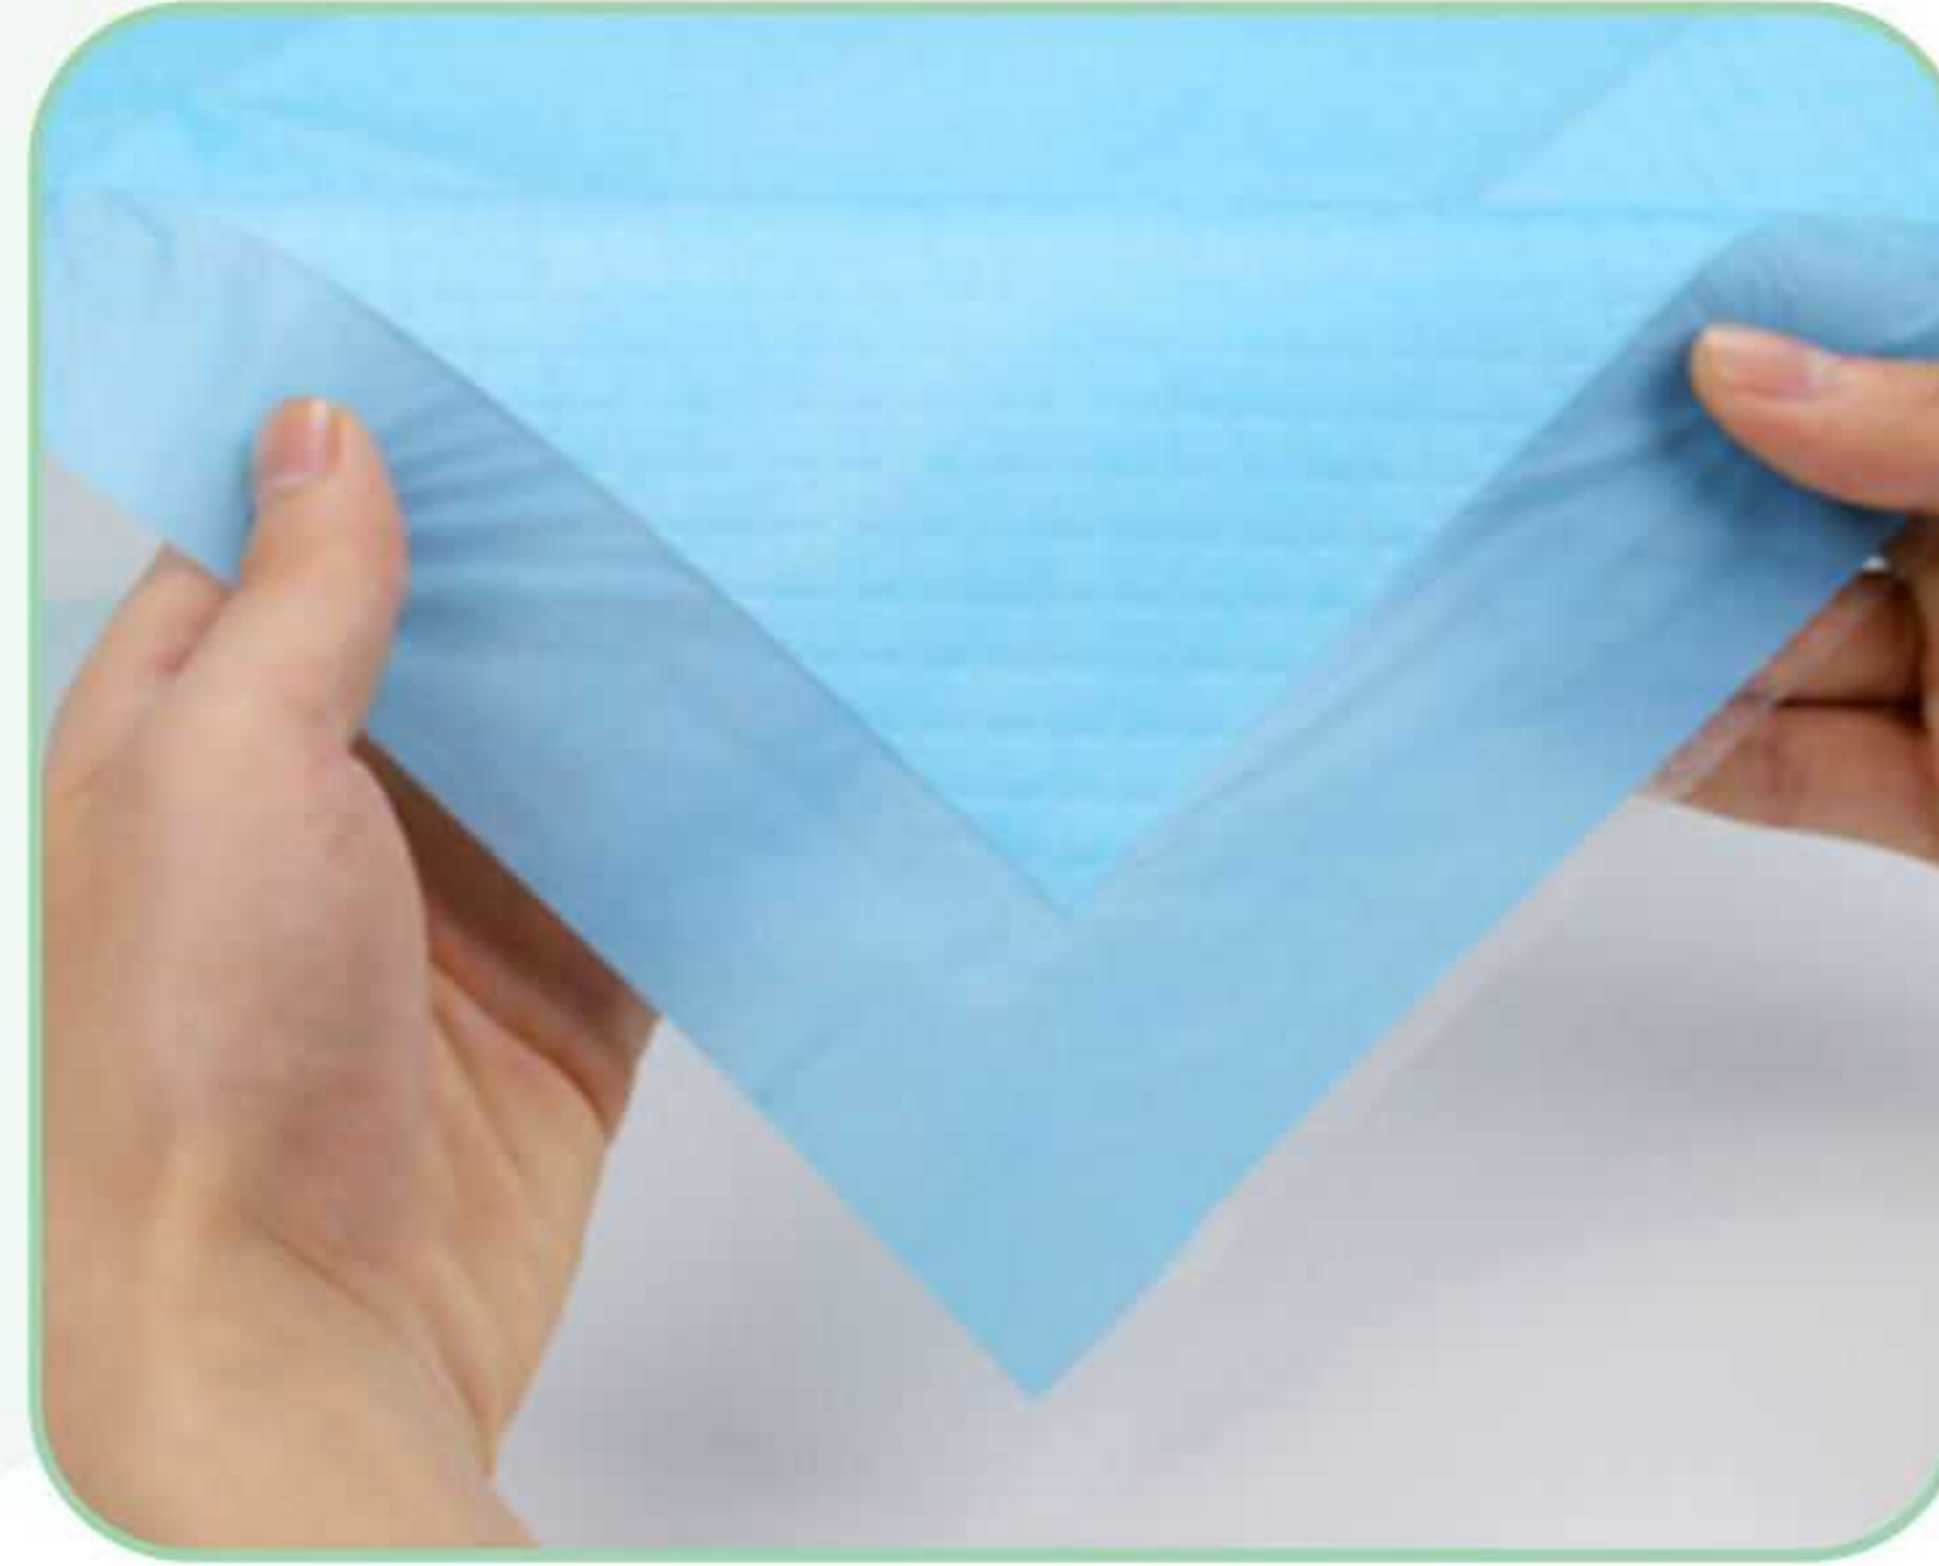

Characteristics:

1. Quick dry surface helps with anti- reverse osmosis to keep a long time dry and comfort.
2. Build in attractant made it easier to train dog with using the pad.
3. Super absorbent core is effective with locking the water in therefore maximize the capacity in urine absorbency.
4. Anti-side leaking ensures the protection for you floor and carpet.
5. Effective odor control gives fresh air to your house.
