# Bentonite Cat Litter

It's made by natural bentonite not only come into strong clumps but also have super absorption on liquid and best deodorization on odors.

## Characteristics

- 01: Strong water absorption, firm agglomeration.
- 02: Combination of large and small particles.
- 03: Additional deodorization factor to absorb odor.
- 04: High hardness cat litter, low dust.

# Tofu Cat Litter

It's made by beancurd residue as main material, mixed with corn starch, vegetable adhesives and deodorant, shape into columnar sand, less track and good foot feels for pet. It's clean flavor for good deodorization, no-toxin, no dust, quick absorption, clumps faster and harder, scoop out clumps and flush into toilet or garden as fertilizer, biodegradable, no work to dispose garbage. A kind of newest eco-friendly cat litter nowadays.

- 01 100% natural, harmless if pet swallowed.
- 02 Super absorbency, extra durability.
- 03 Low dust, protect pet respiratory tract.
- 04 Toilet friendly, flushable and biodegradable.

# Silica Gel Cat Litter

It's white crystal granules with superior absorptivity, deodorizing and antibacterial property. Main component is silicon dioxide, no toxin, no pollution, no odour, can be buried after used, a kind of ideal household environment friendly product.

## Colour:

# Pine Cat Litter

It's made of natural pine wood. It uses the odor-fighting powers of 100% natural pine instead of harsh chemicals, additives or synthetic perfumes to eliminate the toughest litter box odors.

- ◆ 100% Natural Pine.
- ◆ No harsh chemicals or synthetic perfumes.
- ◆ Sawdust shavings are gentle on kitty's paws.
- ◆ Non clumping litter with naturally fresh scent.
- ◆ Powerful odor control naturalizes strong odors on contact.
- ◆ Highly Absorbent, binds directly to ammonia odors and locks them away.

**Recycled cardboard  
paper cat litter**

**Recycled newspaper  
cat litter**

# Paper Cat Litter

There are several types of paper litter: recycle cardboard litter and newspaper litter. Recycle cardboard litter is yellow and newspaper litter is gray. Environmental paper cat litter is based on wood pulp paper as raw material, without any additives. It is new and truly environmental friendly cat litter.

## **Characteristics:**

1. It has light weight, sanitary cleaning, fast water absorption advantages. It can quickly absorb the pet urine and odor which make the environment clean.
2. Environmental paper cat litter is easy to clean. It can be flushable into toilet. Into the sewer can be broken down again, will not block the sewer. It is biodegradable.
3. The manufacturing process of paper cat litter is without any chemical materials and no environmental pollution. Through the use of advanced microwave drying production line for high-temperature sterilization which can make the product without any harm and unsanitary factors for people and pets.

# Puppy Training Pads

Green Pet Care has been dedicating to pet disposable sanitary products since 2010, with our own workshop and professional sales team.

Currently our main products are puppy training pads and dog diaper. We have established a long-term strategic cooperation relationship with world famous company, such as Japanese Sumitomo, American GP, German Henkel. A high quality product can be produced for your pets.

# Disposable puppy training pads

Disposable puppy training pad is super absorbent with five layers of material. The first layer is made of super thin hydrophilic non-woven fabric, which helps to sink dog urine through the pad.

The second layer is a breathable absorbent paper with added attractant to train the dog into a good peeing habit. The third layer is consist of highly efficient water absorbing molecule and advanced fluffy pulp. The combination of two material are able to effectively lock the dog urine and prevent reverse osmosis. In addition, our fourth and fifth layer are designed for anti- leaking with a single purpose of absorbing it all with no leaking at all.

## Characteristics:

1. Quick dry surface helps with anti- reverse osmosis to keep a long time dry and comfort.
2. Build in attractant made it easier to train dog with using the pad.
3. Super absorbent core is effective with locking the water in therefore maximize the capacity in urine absorbency.
4. Anti-side leaking ensures the protection for you floor and carpet.
5. Effective odor control gives fresh air to your house.

**DETAILS**

**Rhombus design**  
Fast absorption

**Self-produced PE Film**  
Quality assured

**Widened perimeter**  
Preventing Leakage

**High-quality SAP**  
High water absorption

**APPLICATIONS**

**Put it in the kennel**

**Put it in the car**

**Put in a portable dog cage**

# Size Available:

- ◆ 17''x24'' (43\*60CM)
- ◆ 23''x24'' (58\*60CM)
- ◆ 23''x36'' (59\*90CM)
- ◆ 30''x30'' (78\*78CM)

# Disposable dog diaper

Disposable dog diapers have been specially designed for both male and female dogs with urinary incontinence, excitable urination and female dogs in heat. It can absorb urine, eliminate unpleasant odor and leave your dog with tail-wagging comfort. Each dog diaper can be loosened or tightened easily at the waist. The legs are also adjustable for superior protection against leaks.

The disposable diapers allow a comfortable fit for your dog and ensure that the dog moves freely. This product makes travel and trips with your dog worry-free!

## Characteristics:

1. The soft non-woven fabric absorbs the urine rapidly to keep the surface dry.
2. Three-dimensional protective wings effectively help with anti-side leaking.
3. Breathable base film helps to lose moisture to keep it dry.
4. The smart urine indicator gives the pet owners an idea of when to change.
5. The elastic band on waist and legs help to fit pets seamlessly without pressure.

**DETAILS**
